

## Riverside RV Village

### Water Update

All water line repairs are complete and all systems are up and running. Because of the rain, the contractors have recommended traffic still be restricted and so the exit of Loop 1 is still two way traffic. Please watch for barriers and follow posted signage. Thank you.

Just a reminder that a **Work Party** is scheduled tomorrow to clear the area for the front maintenance shed. Please meet at 10:00 am at the front washroom facility if you can spare any time. Thanks
