

Projected Date for Water Turn On at Riverside RV Village

This is to advise Owners that Park Operations is hoping to have the water service turned on in some areas in the Park within the next seven days. Water service in your loop will be dependent on the **WEATHER** and **if the sewers servicing your loop are free of ice**. Please watch the white notice board for further details as to when the water for your loop is on.

We always recommend keeping your unit and hose disconnected until the water is turned on and you are around to ensure no connection/ leakage issues arise.

We want to remind Owners to remember the risks and their responsibility for their own trailer/unit and for the water stand-up, valve, the hose connection to your unit and the unit itself. **If it does get cold, they will all need to be protected.** Those of you that don't use your water will be fine, as your stand-up will still be full of air and anti-freeze from the fall blow-down.

9th Provincial BearSmart Workshop May 8 - 10, 2018

This is a 3 day workshop to be held at the Sundre Golf Course. May 9 at 7:00 pm there is a Be Bear Aware presentation by Chuck Bartlebaugh from Missoula, Montana - public welcome.

If you wish to register please go to mountainviewbearsmart.com, click on events and scroll down for details. Workshop registration is free. Food is available for \$25.00 per person per night, but must be ordered by April 30th.

AGM June 2, Riverside Clubhouse

Watch for details coming soon.
