

## Day 2 Sewer Repair Update

We have had a couple of busy days and work in Loop 1 has progressed very nicely. Work started at the manhole on the main road Monday moving into Loop 1. We have had a conversation with the contractor at the end of the day today and they have given the ok for Loops 2, 3 and 4 to use the sewer. Please make sure to use lots of water when using the sewer. We will continue to monitor work and update everyone on the progress as the week goes by. We do not have a date yet on when we can turn on the water so thank you for your patience. We do have some other **important dates** to mention. Please refer to the list below:

**June 1st** - AGM 1:00 pm at the clubhouse.

**June 8th** - Work party to prepare the space for the front maintenance shed being constructed. Meet at the front washroom facility at 10:00 am if you can help.

**July 5th** - Work party to begin construction of the front maintenance shed. More details TBA.
