

Riverside RV Village

A question was posed to the Board as to whether lots 1 to 12 in the permanent loop could have campfires. The answer is yes because they have water access. The ban on campfires in the rest of the park - Loops 1 to 5 remains in effect until we have water.

We are still conferring with contractors on the water main repair and as soon as we have water in Loops 1 through 5 we will let you know. Keep your fingers crossed!
