

## **Urgent Letter from the County of Mountain View and the Town of Sundre**

---

**The Board is advising all Owners regarding a letter received from the Town of Sundre (attached). As everyone is expected to do their part in arresting the spread of the COVID-19 virus, the Board requests that all Owners respect the Town's plea to remain at home. Owners that may have already gone into the park, the Board is requesting that you leave immediately consistent with the Town's letter. (Other than Owners who use Riverside as their permanent residence.)**

**In addition, please be aware that the health services available in the Town of Sundre have been dramatically impacted by the virus and it is important not to add to the burden already being being faced.**

**We encourage all Alberta residents to band together consistent with the requirement of the Government of Alberta so that we can "flatten the curve" and salvage this coming summer season in the Park.**

---

## Joint Municipal Statement

Mountain View County – 403-335-3311  
Town of Sundre – 403-638-3551

March 27, 2020

To Our Fellow Albertans and Visitors,

We are writing to you as a friend, a host and a neighbour requesting your consideration before you travel to our area during this difficult time. Many people have vacation homes, part time residences and recreation or seasonal lots in our town and in Mountain View County. You may find Mountain View County and Sundre as a beautiful place to escape, relax and unwind. We appreciate all that you bring to our area and your contributions to our town.

This is a stressful time with the threat of COVID-19 spreading throughout Canada. Closures of Schools, and Recreation facilities, cancellation of trips planned months in advance, all lead to a desire to find a place to escape. We would like to request at this time that before you visit us you consider that we have a small hospital and a limited number of doctors and medical staff that cover the emergency department, clinics, and hospital in-patients.

Our town is small and isolated and our closest other healthcare facilities will likely be strained with regional cases. Transport of patients between Sundre and other municipalities can be difficult at the best of times and moving Covid-19 patients will put many emergency health care providers at risk.

We are doing what we can to ensure we are able to provide essential services to our residents and an increase in population or visitors could put those staff and service providers at further risk.

Throughout the year, summer months, winter holidays, and long weekends we are honoured to have you visit our County and town. During this time though we ask that you remain home and do your part to limit the spread of the COVID-19 virus and the potentially very serious illness that comes with it.

We thank you for your consideration and allowing us to focus on giving our local residents and community the best possible care.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Bruce Beattie".
