Water and Sewer System Shutdown

Once again just a reminder that water shut down will occur on [Monday, September 28, 2020](#). The water in the park will be shut off at [9:00 am](#). Nights are cool so please cover your outside stand up taps to prevent freezing and leave them covered even if you have winterized your unit. Remove y connectors on taps by Monday the 28th.

The sewer system will be closed effective [Monday, October 19, 2020](#). After that date there is to be NO USAGE as the sewer system will be flushed park wide and plugs installed.

Front Washroom and Laundry Facility

Beginning [September the 28th](#) the front washrooms and laundry facilities will be [open daily](#) for regular pre COVID operating hours with some COVID restrictions remaining in place.

***Usage will be monitored and facilities will remain accessible as long as COVID rules are being**

observed.*

Washrooms

Washrooms will be inspected and sanitized twice daily and will be closed around noon and the dinner hour for the sanitization process.

Maximum capacity will be 3 people inside at one time.

The number of toilets and showers will be limited to maintain maximum capacity and social distancing.

Users are asked to bring sanitizing wipes to wipe down all high touch surfaces such as taps, flushers, doorknobs or any surfaces touched. **WIPES MUST BE DISPOSED OF IN GARBAGE CONTAINERS AND NOT FLUSHED DOWN TOILETS.**

Porta potties are to be emptied in toilets only. Please flush several times and clean up as necessary after emptying.

Laundry

The laundry room will be opened for pre COVID operating hours. No appointment is necessary.

Usage is restricted to one user at a time. An "In Use" sign will be provided to hang on the door.

Users are requested to bring sanitizing wipes to clean all surfaces touched and to sweep the floors and remove their own trash.

If an owner is filling water containers at the sink they should also bring sanitizing wipes to clean all taps and door handles or any surfaces touched.

Pets

Some concerns have been received regarding pets roaming loose. Just a reminder

that all pets should be on a leash, and that owners are expected to clean up after them.

Park Manager

Melany Sealy will be in the park daily. Should she need to be reached in an emergency after hours she can be reached at 403 556-9833. The park # and her number are also posted at the mobile.
